

"Our business is changing the world by providing a safe haven for the intellectually disabled, sharing our time to be a caring companion to those who need us, and giving relief to those who require time away to reflect and gather themselves while caring for their loved ones."

~ Benita Owens ~

About Us

We provide personal support services for people with developmental disabilities. We also service the elderly with immense care and attention. We began simply as a group home and now have expanded our services into residential, companion, personal, and respite care. We provide exceptional, compassionate, person-centered, care to ALL.

Our Specialized Care Opportunities

- Residential / Group Home Care
- Companion Care
- Respite Care
- Personal Care
- Privacy Pay Services (Senior)

Let's enrich the lives of
your loved ones.

How We Can Help?

Residential / Group Home Care

Group Home Care is 24/7 care provided to individuals with similar disabilities within a residence. All levels of care are provided for these people. This care includes ADLs, companion, and personal care.

Companion Care

Companion Care is in-home care that offers non-medical services for your loved ones. Companion Care provides essential assistance services like running errands, prepping meals, social interaction, light housekeeping, transportation to doctor appointments, and other activities.

Respite Care

Respite Care provides short-term relief for primary caregivers who need to be re-energized and provided time away from their duties, while trusting that your loved one is still receiving the best care.

Personal care

Personal Care provides assistance with daily living activities such as monitoring health statuses, physical conditions (bathing, dish washing, eating etc.), or other medical needs.

Private Pay

A critical step in finding the right home care for a loved one is knowing your options for paying for services. At UCHC We offer Private Pay Options for all services.
